After finding your way out of the maze, watch the goats play on the goat walk and bring home a pumpkin from the A-mazing Acres pumpkin patch.

ROCK CLIMBING!

When you picture top rock-climbing locations, Michigan is unlikely to jump to the front of your thoughts. Although Michiana lacks the granite cliffs of California or the hills of Tennessee, there are still plenty of great places to climb, both indoor and outdoor.

In Michiana, check out several of the nearby climbing gyms which offer a variety of routes and difficulty. For the climbing "purists," take the drive over to Fitzgerald and Oak Parks in Grand Ledge (2-hr. drive), or head up to the Upper Peninsula over a long weekend for plenty of quality climbing (8- to 9-hr. drive). Marquette contains popular sites such as Sugarloaf, Triple A Rock, Presque Isle Park, Mount Marquette, and Palmer Cliffs, among others.

If you climb often, invest in your own gear, especially a harness, carabiners, helmet, shoes, and belay devices. Rental equipment adds up, and the comfort, convenience, and flexibility of having your own gear helps offset the cost. Carpool with other Andrews climbers to save gas money when driving to a climbing location.

Gather up your gear and head on out!

Yes, you read this correctly. You CAN surf in Michigan. Fall, particularly in October and November, becomes prime Michigan surfing season when the north or northwest winds create the best surf along the southwest shoreline of Lake Michigan. Local surfers say that, depending on the wind, the piers at Holland, Grand Haven, or Muskegon can create waves large enough for some astonishingly good surfing. St. Joseph and Northern Indiana shorelines also have some great surf breaks, although they don’t become ideal until the wind blows hard out of the NE or NNE.

Of course, this isn’t California or Hawaii. The lake is often flat, and the days you can surf are often few and far between. The waves here often have a different pattern, and although surfers say that the steeper drop can make for thrilling rides, surfing on the Great Lakes is not recommended for beginners.

Be sure to wear a good, thick wetsuit before venturing out since the lake temperatures can be very cold. You must be a strong swimmer, bring safety vests, and never surf alone.

APPLE CIDER

Try sweet apple cider spiced with a cinnamon stick for a taste of fall! Non-alcoholic fresh apple cider is a fall staple here in Michigan. Nearby Stone’s Farm Market right here in Berrien Springs sells a delicious Honeycrisp Apple Cider that is made from their own Honeycrisp apples and mulled at a Michigan cider press. We HIGHLY recommend you try it! You could also check out Robinson’s Apple Haus in Grand Rapids, Michigan, which makes fresh cider at their cider mill using a blend of apples (1 hour and 30 minutes’ drive from campus), or Dexter Cider Mill in Dexter, Michigan (2 hours and 30 minutes’ drive), which is the oldest continuously operating cider mill in Michigan.

Are you preparing for a festive occasion and want a classy sparkling beverage? Try St. Julian’s, the oldest winery in Michigan, which sells delicious sparkling juice at Apple Valley and select other local stores. GRAPES

Grapes are abundant due to Michigan’s vineyards. Take time to walk or bike past the local vineyards since the ripening grapes produce a wonderful sweet smell. Look for the Concord grapes which are available at local farm stands and some grocery stores for a limited time in the fall. Concord grapes do have seeds, but they taste heavenly.
