Spring is one of the most gorgeous seasons in Michigan. There are dozens of varieties of flowering trees in Southwest Michigan and right here on Andrews University’s campus. You’ll be surrounded by pink blossoms from magnolia, redbud, and cherry trees, yellow forsythia, purple lilacs, and white apple blossoms. Andrews University’s campus is actually an officially registered arboretum. Take a hike in Love Creek Nature Preserve or Andrews University’s trail system to enjoy the trilliums, wild columbines, and wild geraniums springing up everywhere. Only an hour away, Holland, Michigan is famous for its Tulip Time Festival where you can experience traditional wooden shoe dancing, parades, trolley tours, and fireworks. Enjoy over five million tulips planted in Veldheer gardens alone, not to mention the other gardens and downtown planters spread throughout Holland. Springtime in Michigan usually starts to come in mid-to-late March and lasts through May, with peak flowering times for different blossoms and trees.
IDEAS FOR SPRINGTIME

SPRINGTIME MOTORCYCLE RIDE OR SCENIC DRIVE IN YOUR CAR

Sometimes, on a beautiful spring day, youjust want to roll down the windows and go for a drive in the countryside. Go for a scenic drive in your car or on your motorcycle on winding local back roads to nowhere in particular. From the road, you can admire the fresh spring greenery splashed with color from flowers and fruit blossoms. Remember it is about the journey, not the destination!

GROW A GARDEN

Get green by planting a garden or balcony boxes! Plant fresh herbs, vegetables, and flowers that you can enjoy all spring and summer long. Even if you live in an apartment or dormitory room, indoor boxed plants can brighten your room and may even improve your indoor air quality!

PLAY IN THE RAIN

Bring back your inner child by enjoying a rainy day just like a kid. Splash in the biggest puddles you can find, walk barefoot in the grass, or go for a rainy run. Gather a group of friends for a fun game of soccer or football in the rain, or even set up a wet-weather obstacle course. However, make sure there is no sign of thunder or lightning! you go inside immediately if there is any sign of thunder or lightning!

VOLUNTEER

Spend some time giving back to the community this spring. Talk to our Andrews University Campus Ministry office for volunteer opportunities, or visit www.volunteerserv.org to view more openings within the Southwest Michigan community. Help with food preparations at the Salvation Army, assist with the Therapeutic Equine Center (tecfarm.org), care for animals at the Berrien Center Animal Control Department, or help with recycling, or any number of other volunteer opportunities.

TRY YOUR HAND AT GEOCACHING

Geocaching uses a GPS to find hidden caches of treasure and to find cool new places to visit! You can find caches using your phone or GPS. www.geocaching.com will give you a list of geocaches, and help you navigate to their locations. Geocaches come in a variety of shapes, sizes and difficulties. After you find a geocache, you can sign the log book, trade knickknacks if you want, and even log your find online. Nearby Fernwood Botanical Gardens hosts several geocaches with directions available online or via handout at Fernwood. Bring a friend with you and explore locations far and near!

GO “SHINGLE” SHOPPING OR BROWSE AN ANTIQUE SHOP

Northern Indiana’s Amish country is filled with charming, simple shops recognizable by signs (shingles) that announce which wares are for sale. Shop for Amish-crafted goods, choose, candy, jams, and honey. Look for a steady pieces of artisan-crafted furniture, or purchase a beautiful candle. The towns of Bristol, Elkhart, Shipshewana, Nappanee, Wakarusa, Mishiberry, and Goshen are all fantastic for shopping and exploring Amish country, and all are under 1 hour and 15 minutes’ drive from Andrews University.

Broaden your search to antiques to find hundreds of fascinating antique stores in the nearby area. Locally, visit Shoeme Road Antiques in Berda, Michigan (20 minutes away) or Main Street Antiques in Niles, Michigan. Drive further south to Parrotton, Indiana (1 hour and 30 minutes south of Andrews University) for a town filled with antique stores. Head east for two hours over to the “Antique Capital of the World” in Allen, Michigan, or south 3 hours to Connersville, Indiana for antique shop galore! Visit Indiana’s “Antique Alley” (maps available at the Richmond/Wayne County Tourism Bureau) which will guide you to hundreds of shops and antique malls in historic districts.

RUN A MARATHON, HALF-MARATHON, 10K OR 5K

Signing up for a spring race is a great way to motivate you to stay in shape and keep exercising over the winter. Are you feeling up for a big challenge? Sign up for a marathon and find a solid training plan to whip you into shape to run all 26.2 miles strong! A spring marathon will require you to do many of your long runs in the snow or on a treadmill, but having a race looming ahead on your calendar will keep you motivated to do the miles. If a full marathon is too much of a challenge, try one of the many half marathons in the region. A half marathon is a great distance since you don’t have to put in the long miles and hours required for marathon training, but you still need to train well to have a successful race.

10k and 5k races are fantastic options if you don’t have the time or desire to train for a longer race. There are loads of fantastic shorter race options nearby. A 10k or 5k training plan can ensure you’re fit for a great race, and you can focus on speed if you must an extra challenge.

Check out www.active.com or www.runningintheusa.com to find a race that fits your schedule and goals.

HITTING THE TRAILS

ALI TRAILS SYSTEM

ANDREWS UNIVERSITY, BERRIEN SPRINGS, MICHIGAN

Springtime is a beautiful time to walk, trail run, or mountain bike through the woods and trails here at Andrews University. The trails are one of Andrews University’s best-kept secrets! Pass by peach orchards blooming with pink flowers and run through a forest floor carpeted in delicate white flowers. Andrews University’s trails allow you to hike or run over 11 miles of beautiful, rolling trails right here on campus. There is a 10-mile single-track mountain bike trail and a two-mile loop ideal for runners. Be prepared to be aerobically challenged as there is a lot of elevation gain. The trails are quite technical, so take your time and be safe. Make sure to bring someone who knows the Andrews’ trails your first time out so you don’t get lost.

TRILLIUMS

These delicate white blossoms are found in abundance on the forest hillsides. Enjoy them from many of the trails winding through Andrews University, Love Creek, Fernwood, and other nearby trail systems. Do not pick the flowers as they are extremely fragile and you will want to preserve them for others to enjoy their beauty as well.

SNOW DROPS

Appearing out of the snow as one of the first signs of spring, these lovely flowers form carpets of white along the forest floor. You will feel as though you are running through a fairyland if you go for a trail run or hike during springtime when the snow drops are blossoming.

PEACH BLOSSOMS

If you follow the trail north past the Andrews University observatory, you will encounter a hillside of peach orchards which burst into beautiful pink blossoms in spring. On a sunny day, it’s well worth the short trek out to the orchards to see rows upon rows of pink flowering trees framed against a brilliant blue sky.

MORELS & EDIBLE MUSHROOMS

Morels live in and on the edge of forested areas. They often grow around ash, aspen, elm, and oak trees. Look for them early in the spring as the ground is warming on south-facing slopes in fairly open areas. Later in the season, you will want to go deeper into the woods and start searching on north-facing slopes. Be sure you know how to identify and distinguish morels and edible mushrooms from poisonous species! A good rule of thumb is if you don’t know if it’s safe, don’t touch it.
LOVE CREEK COUNTY PARK
BERRIEN CENTER, MICHIGAN

This charming county park and nature center offers six miles of beautiful, well-maintained trails through a variety of habitats, including a beech-maple forest. Only 5-10 minutes away from Andrews University depending on traffic, Love Creek is a wonderful place to get outside and enjoy the forest trails by foot or mountain bike.

ST. PATRICK’S COUNTY PARK
SOUTH BEND, INDIANA

Take a short hike through woods and grasslands on the St. Patrick’s County Park trail system. Step back into Northern Indiana’s history by viewing the picturesque Red Barn, one of the largest wooden barns in the county.

FERNWOOD BOTANICAL GARDEN AND NATURE PRESERVE
NILES, MICHIGAN

At Fernwood, discover different ecological environments including dry and wet forests, streams and ponds, and a tulip tree prairie. Enjoy several great hiking paths such as the Streamside Trail which features wildflowers, a spruce-fir forest, wetlands, and bogs. The Fern trail highlights the diversity of ferns and shady wetland plants that can be found in southwest Michigan. The River Trail follows a sand ridge along the banks of the St. Joseph River through oak and other dry forest trees. Other trails include the Prairie, Old Field, Wilderness, Woodland, and Ecology trails.

NORTHWEST LOWER MICHIGAN

Nestled by the winding Manistee River are miles of wonderful trails through the Manistee National Forest. Explore the pine-hardwood forest, hilly ravines, wetlands, and sandy soil of this wilderness located only 3 hours away from Andrews. Hikers won’t want to miss exploring Sleeping Bear Dunes’ 100 miles of hiking trails through beech-maple and birch forests, picturesque farmlands, inland lakes and rivers and stunning views of Lake Michigan’s magnificent blue water from sweeping high dunes.
CYCLOCROSS

Cyclocross is a cross between road racing and mountain biking. If racing competitive laps around a course that may feature pavement, grass, mud, dirt, and gravel while negotiating a number of obstacles, possibly requiring you to dismount and remount your bicycle, sounds fun to you, then you should try cyclocross!

One March event you should check out is the Screw City Cyclocross Classic in Rockford, Illinois. It is an intensely fun event!

MOUNTAIN BIKING

The Berrien Springs area contains a surprising number of trails. With an abundance of forests and gentle rolling hills, Michiana has quite a few state parks, nature preserves, and recreational areas with fun trails for mountain biking.

In addition to the parks below, check out Maladine Bertrand Park (Niles, Michigan), Benita Woods (South Bend, Indiana), Al Salo (Kalamazoo, Michigan), and Bentsen County Park (Westlake, Indiana). If you are willing to drive a bit further, hit up the 16-mile, advanced, technical Highland Recreation single-track (White Lake, Michigan), or the 24-mile advanced Petoskey single-track (Petoskey, Michigan), both a 3-hour drive from Andrews University.

Road cycling

Rolling hills, beautiful scenery, quiet back roads, and a strong biking community all help to make Michiana a great place to road bike.

It’s easy to get caught up in all of the chocolate bunnies, Easter eggs, decorations, and Peeps. However, remember that the focus on this season should be on Jesus and the story of His sacrifice and resurrection. ANDREWS UNIVERSITY hosts a Passion Play, usually every other year, around Easter. Follow the story by walking from scene to scene across campus. ATTEND AN EASTER MOVIE

PAINT EASTER EGGS

If you enjoy crafts and DIY, you will probably enjoy painting Easter eggs! First, boil your eggs. You don’t want to accidentally break an egg and have many eggs all over your floor. Next, create your own egg decoration. You can look to Pinterest or sites like Better Homes and Gardens for inspiration, or create your own beautiful designs.

Ideas could include Tissue Paper Eggs with decorative edges or origami cut from colored tissue paper, Melty Crayola Eggs with crayon designs melted to each egg, Watercolor Eggs with painted colors, Scrapbooked Eggs with scrapbooking stickers and materials, or Natural Elements Eggs colored with beet juice, turmeric, and purple cabbage. The possibilities are endless!

EASTER EGG HUNT

Easter Egg hunts are great fun for kids who love running all around the lawn finding eggs filled with candy, toys, and other goodies hidden in the grass, under rocks, and in the bushes. Look in the local news and events to find a nearby Easter Egg hunt that fits you and your family’s schedule, or make your own in the backyard.

If you’re feeling ambitious, consider organizing an Easter Egg hunt for adults! You could give out better prizes (think quality chocolate and candy, money, chapter, tea bags, gum, headphones, etc.), play in the dark with flashlights, throw a fitness egg hunt where plastic eggs are filled with various exercises (for example, “do 5 push-ups”), a solilo-challenge where eggs are filled with names of something you have to take a picture of (making a funny face, a tree, a flower, cracking an egg over your head, etc.), or have a larger award for whoever found the most eggs. You can make sure eggs are camouflaged, well-hidden, or in hard-to-reach places, or put a competitive time limit on the hunt to make things more interesting.

EASTER CHORALE CONCERT

ANDREWS UNIVERSITY

ANDREWS UNIVERSITY’s annual Easter Chorale Concert at the How-ard Performing Arts center. You will be blessed by music performed by the select choir, the Andrews University Singers, and by the larger Andrews University Chorus Ensemble, as part of a special Easter performance.

EASTER CHOCOLATE

Who doesn’t like to splurge on a little Easter chocolate? Of course, the sales and selections at the local grocery stores always make for a tasty treat, and Target has a beautiful selection of chocolate.

But if you’re looking for a truly delectable Easter chocolate experience, visit one of the local businesses that specializes in quality chocolate. Veni’s Sweet Shop in Niles, Michigan sells delicious, artisan, hand-dipped chocolates made from only the finest, freshest ingredients. Kilwin’s in St. Joseph, Michigan offers chocolates and caramels hand-crafted directly in their kitchen in Petoskey, Michigan. The South Bend Chocolate Company, with locations in both St. Joseph, Michigan and South Bend, Indiana, make handmade gourmet chocolates and confections that will melt in your mouth. If you’re feeling adventurous, consider making your own chocolate! You can make handmade chocolate eggs, chocolate bars, or even chocolate Easter baskets. You could also make your own homemade chocolate eggs, chocolate bars, or even chocolate Easter baskets. You can find a variety of recipes online or in cookbooks, and customize them to your liking.
